EQUIPMENT TO TAKE

ADVISED MATERIAL TO TAKE WITH YOU (non-exhaustive checklist) :

As a good preparation is key to a successful stay, here are a few tips to ensure that your trip takes place in optimal conditions.

BIKES

In order that your stay does not turn into a mechanical training course, it's advisable to carry out a meticulous revision of your bike before going on a tour :

- the tyres are well inflated and in good condition
- cables and chain are in good condition
- the transmission elements are clean and oiled
- there are no leaks in the suspensions
- the wheels are well tightened
- the brakes are in good condition (wear + possible leaks)
- the headset has been checked

And don't forget that anomalies are easier to spot on a cleaned bike...

REPAIR MATERIAL

To avoid mechanical problems, it's better to be far-sighted and always carry the basic equipment of a biker:

- 2 inner tubes (puncture sealant is strongly recommended, or puncture sealant strips)
- a pump

- tire irons
- an inner tube repair kit consisting of patches and glue
- a multi-tool
- a small wrench
- a piece of tire

Also, you can prepare your own toolbox which we transfer with your luggage. You will put in it the following items :

- a brake cable (front and rear)
- a derailleur cable
- a tyre
- one derailleur hanger
- chain oil
- a rag

EQUIPMENT

As you can't judge a book by its cover, cycling slinky shorts won't help you to turn into a cycling champion. However, a minimum of specific bike equipment will be necessary in order to be comfortable :

- a helmet
- glasses
- suitable shoes (no smooth soles)
- a cycling short or short
- a breathable tee-shirt (try to avoid cotton)

DAY BACKPACK

Because it's unpleasant to ride with a too loaded backpack, it's better to think carefully about the necessary things to bring in the backpack for the day:

- a water bag and/or a flask and/or water cans on the bike (2L/day/person minimum)
- provisions (energy bars, dried fruits...)
- the basic repair material for your bike (see above)
- a windbreaker (waterproof)
- picnic
- a headlamp
- a knife
- sun cream (+ lip protection)
- toilet paper
- a first-aid kit (see below)
- your mobile phone + an external battery
- a rubbish bag

PICNIC

In order to avoid unnecessary waste at picnic time, remember to take with you :

- an airtight box (0.5L) with initials marked on the lid and on the box + wide elastics

- reusable cutlery (fork and pocketknife)

TRAVEL BAG

Your luggage is transferred during the day and you will find it every evening at your hotel. It is preferable that your travel bag contains the following items :

- a sleeping bag liner (stays in gîtes)
- a change of clothes
- a pair of light shoes for the evening
- a large jumper or fleece jacket
- a small toilet bag with a towel

FIRST-AID KIT

Concerning all our guided stays, the instructor has a first aid kit.

However, it is essential to bring your own first aid kit.

Here is a list of the minimum items to take with you:

- disinfectant
- gauze strips
- plaster
- protective cream for the buttocks
- your personal medicines
- micropur pastilles (water disinfectant)
- a survival blanket

A more complete first-aid kit should be formulated with your doctor.
